

The Trump Administration Is Supporting the People of Missouri

“We have the best doctors, the best military leaders, and the best logistics professionals anywhere in the world. And we’re orchestrating a massive Federal response unlike anything our country has ever seen.”

– President Donald J. Trump

Successful emergency management requires nationwide cooperation and unity of effort, combining the strength and ingenuity of our citizens and private sector with a sweeping, all-inclusive, and whole-of-government response. The below is a partial overview of Federal assistance provided to the State of Missouri and the people of Missouri to combat the Novel Coronavirus (COVID-19). The information is bolstered by hundreds of additional actions by the Federal government to help the people of Missouri.
