

MISSOURI'S PLAN FOR

AMERICAN RESCUE PLAN ACT STATE FISCAL RECOVERY FUNDS (ARPA)

✓ SUSTAINABLE

- Limited to one-time expenditures and minimal ongoing costs.

✓ LONG-TERM IMPACT

- This is a once-in-a-lifetime opportunity. We want to make the most of these investments for the next generation to help transform communities and improve the lives of citizens for the long-term.

✓ SIZABLE IMPACT ACROSS THE STATE

- Statewide or significant regional impact.

✓ CAPACITY

- State agencies, contractors, and businesses are able to administer the funding within the allowable timelines of ARPA.

✓ PROGRAMS, NOT PROJECTS

- Not limiting funds for single projects or organizations, but making grants available for entities to apply and compete.

✓ LEVERAGING FUNDS THROUGH MATCHING FUNDS

- Maximizes available funding by maximizing total funds available and focusing local and state efforts around shared priorities.
- Ensures local buy-in and commitment.
- Helps protect local government from federal audits.
